TRAINING

CONSULTING

→ Live Online Training Classes

Interested in live online training for courses available in the PetPoint Learning Center? Trainers are available for live online training for groups who feel they will benefit from the experience.

Details: Sessions are available for organizations who wish to participate in live online training for courses currently available in the PetPoint Learning Center. Trainers will host 60-minute sessions to provide training on subjects requested by each organization. All sessions are available to maximize learning and retention. Classes can be purchased individually or as discounted packages.

Pricing: $50 per 60-minute session or $200 for a pack of five 60-minute sessions. Contact the Training Team to discuss your training needs and receive an estimate.

→ Onsite Training for Organizations

PetPoint Trainers at your door! Trainers are available to come to your organization for onsite PetPoint training. Schedule your visits where and when you need them.

Details: PetPoint Trainers are available to visit your organization for individualized training based on your needs. Whether you want to train your intake staff on live entry, medical personnel on streamlining entries, administrators on how to set up your database or any other training need, our trainers will provide up to eight hours of individualized training per day.

Pricing: Prices vary based on need. Contact the Training Team to discuss your training needs and receive an estimate.

→ Onsite Training for Groups

Coalitions and partners can utilize expert, curriculum-based training in the topics they choose using collaborative onsite group training.

Details: PetPoint Trainers are available to visit for curriculum-based training specific to your needs. Coalitions, associations and organizations working together to streamline transfers, collaborate on reporting, or simply utilize PetPoint more effectively, can host an area training event and a PetPoint Trainer will present and teach for up to eight hours each day in the areas of interest to the group.

Pricing: Prices vary based on need. Contact the Training Team to discuss your training needs and receive an estimate.

→ PetPoint Online Usage Assessment and Analysis Services

PetPoint Experts are here to provide you with actionable advice on working with the PetPoint software to best serve your needs in online sessions.

Details: As an organization with specific needs, individualized processes and unique challenges, assistance is available to assess these areas to determine how PetPoint can be used to best address your organizational needs and goals. Whether you are new to PetPoint or have used the system for some time, this service will allow you to maximize your time and efforts within the system. This assessment includes an online 90-minute initial assessment meeting, a 3-hour review of your current PetPoint database setup, and a recommended action plan for your organization that our expert will review with you. Depending on the size of the organization, additional time may be required.

Pricing: Starting at $750. Contact the Training Team to discuss your needs and receive an estimate.

→ PetPoint Onsite Usage Assessment and Analysis Services

PetPoint Experts are here to provide you with actionable advice on working with the PetPoint software to best serve your needs in person!

Details: As an organization with specific needs, individualized processes and unique challenges, assistance is available to assess these areas to determine how PetPoint can be utilized to best address your organizational needs and goals. Whether you are new to PetPoint or have used the system for some time, this service will allow you to increase your use and maximize your time and efforts within the system. PetPoint experts will participate in a full day in-person review of current areas and processes, discussions of needs and goals with leadership, detailed assessment and action plan, as well as a full day to discuss the action plan and provide instruction as requested by the organization. Depending on the size of the organization, additional time may be required.

Pricing: Prices vary based on need. Contact the Training Team to discuss your needs and receive an estimate.

→ PetPoint Builder Creation Services

Enterprise Clients, you asked for help and we've got it - PetPoint Custom Builder Experts are ready to create builders for you so you can spend less time making your reports, kennel cards and documents and more time enjoying them!

Details: PetPoint Builder Experts are available to create reports for Enterprise clients who determine they need assistance in this area. In addition to Builder training and general assistance for creating custom reports, kennel cards and documents, experts are here to do it for you! Builder items can be created based on your needs and will be available within your database for use or further modification.

Pricing: Prices vary based on need. Contact the Training Team to discuss your needs and receive an estimate.
