

Description

The PetPoint ScanFlex AFX-100 Reader is a portable reader for RFID tags that has been specially designed for companion animal applications, animal shelters and veterinarians. It has an omni-directional antenna that reduces sensitivity to tag orientation, which greatly decreases the time taken to detect microchips. Lightweight and compact, the scanner can read all microchips that comply with ISO standards. The ScanFlex AFX-100 can read ISO HDX, FDX-B, FDX-A (Destron/FECAVA) and Trovan microchips, but will also detect the presence of AVID encrypted microchips.

The PetPoint ScanFlex AFX-100 can also store up to 2000 IDs, each associated with a time/date stamp and transmit them to a personal computer via a USB interface or Bluetooth® interface.

Advantages

- ISO HDX, FDX-B, FDX-A (Destron/FECAVA) and Trovan microchips along with the detection of AVID microchips are displayed on the digital screen
- Unique dual element omni-directional antenna reduces time spent searching for microchips
- Backlight graphical display
- Audible beeper and tactile vibrator reading indicators; adjustable to accommodate skittish animals (configurable)
- USB and Bluetooth® Technology wireless connectivity (including Bluetooth dongle for new users)
- Real-time clock/calendar for time/date stamping tag readings
- Compact and lightweight (11" x 3.3" x 2.2" – 9.7 oz)
- Unique Press and Release button - eliminates the need to hold the button during scanning
- Rechargeable battery provides up to 15 hours of use
- 3 hour fast charge time
- Battery charge level indicator
- Automatic shut off conserves battery life
- Carrying case for storing scanner and accessories
- One-year warranty on Parts and Labor

Tag Compatibility	ISO 11784/11785 - HDX and FDX-B, Annex C - FDX-A (Destron/FECAVA) and Trovan
Weight	9.7 oz (275 g)
Dimensions	11 x 3.3 x 2.2 in (280 x 83 x 55 mm)
Case Material	Plastic (ABS-PC)
User Interface	Graphical display 0.8 x 1.5 in (128x64 dots) 2 key functions (Read and Menu) which can be inverted by the user Software provides capability for ID tags to be instantly displayed on computer
Additional Reader Functions	Buzzer and Vibrator functions available Microchip numbers can be transmitted automatically via USB cable or Bluetooth® USB Bluetooth dongle included®*
Memory	2000 ID code capacity (includes time/date stamping for tag readings)
Battery	7.2 VDC – 700mAh NiMH rechargeable
Battery Life (fully charged)	15 hours @ 68°F/ 20°C
Battery Charging Time	3 hours (from fully discharged)

* requires Windows 7 or Windows XP

Manufacturer's suggested retail price: ~~\$375.00~~ **PetPoint Price: \$325.00**
